Professional Summary

I am a software engineer with a passion for developing innovative systems that are reliable and user-friendly that expedite the efficiency and effectiveness of organizational success. I am motivated to learn more, grow and contribute to team success through hard work, dedication and excellent organizational skills and to   excel in every organization I work for .I am a team player who is ready for new challenge and can work independently as well. I have about three years' experience in building   python/Django apps and Django APIS. Above all, I am a confident communicator, strategic thinker, and innovative creator to develop software that is customized to meet a company's organizational needs, highlight their core competencies and further their success.
